

Client: First Capital Bank, Malawi

Industry: Retail & Corporate Banking

Solution: WhatsApp Wallet & Banking

Innovation led Bank -Fintech partnership

Client overview

First Capital Bank first opened for business in Zimbabwe as Barclays Bank in 1912. FCB currently has regional operations in Botswana, Malawi, Mozambique, Zambia, and Zimbabwe.

First Capital Bank started operations in Malawi, with one branch in Blantyre in 1995. Today, the bank has 32 branches and agencies across Malawi, serving a customer base of 500,000. FCB Malawi offers a comprehensive range of financial products across different segments of the Malawian financial market including Retail, SMEs, corporate and institutional banking.

Market Landscape

Malawi banking and payments are going through a paradigm shift in the adoption of digital payments. With a huge unbanked population and high prevalence of cash, there is a need for an easy-to-use payment mechanism with frictionless on-boarding, multi-level KYC P2P payments, Bill Payments and upgrade to full banking services.

Solution goals

- Acquire new customers inorganically by leveraging private label WhatsApp wallet for P2P payments between non-bank customers.
- Enable self-service transactional banking, and increase accessibility to banking services among un-banked users with WhatsApp wallet.
- Extend reach & gain a competitive edge by being the pioneer of transactional WhatsApp banking in Malawi & Seamlessly embed WhatsApp as a channel in the everyday mobile banking experience for banking and wallet transactions.
- Be a leader in the mobile payments market with a private label Wallet + WhatsApp banking for frictionless P2P payments, transactions, and bill payments.

Solution

Instant New Wallet opening with OCR, ID verification & face match along with Multi-level KYC with transaction and amount limits.

Enterprise-grade security specifically designed for WhatsApp with multi-factor authentication & explicit login - logout backed with OTP engine.

Case study

Deployment/integrations

- · Completely secure on-premise deployment
- Integration with Finacle backend system
- · Card system & Payment gateway integration
- Biller integrations Electricity, Telephone, DTH & Internet

Success factors

- Pre-built banking-specific customer journeys helped in reducing the deployment time considerably.
- BankBuddy's team expertise and prior experience of integration with core banking systems (Finacle, in this case) fast-tracked the process.
- Configurable workflows and customizable user interface to adapt to the FCB'S branding guidelines.
- Mature, Scalable, and expandable technology architecture to handle customer volumes, software updates, and additional channels.
- Built-in multi-layered data security and authentication mechanism.
